

To conserve space, the large-print Strong's Concordance does not list the Hebrew/Greek Dictionary reference numbers for a many frequently used, but relatively minor articles, verbs, conjunctions, adjectives and prepositions which, in the original Strong's Concordance were grouped into an appendix of forty-seven such words. For the convenience of the students who prefer a large-print Strong's, we have chosen to summarize below a partial list of those words found in the Appendix of the original Strong's Concordance and their corresponding Hebrew/ Greek Dictionary reference numbers. We at Shepherd's Chapel hope that you find this list useful.
